We are HIRING a Web Development Manager

Do you love building and designing websites? Do you love Jesus more than building websites? Do you want to use those skills to make the world a better place, while mentoring college students?

WE ARE LOOKING FOR

- A competent, creative, motivated web development professional with a heart for ministry
- A self-starter who understands the value of a team to create something wonderful and effective
- Someone who has the desire to mentor college students, both spiritually and technically
- Someone who is willing to work hard yet humbly, loves seeing Jesus come alive in college students, and excited to contribute to something bigger than themselves

YOU WILL GET TO

- Create and manage a variety of web based projects
- Collaborate with our team of talented design professionals
- Help change the lives of college students through mentorship and discipleship
- Work with a dynamic, passionate, hard-working group of gifted individuals
- Serve a ministry, a variety of non-profit start-ups, and faith-based initiatives

YOU SHOULD HAVE

- A degree related to technology and experience designing and implementing websites
 - Competency in CSS, HTML, PHP, Javascript, Wordpress and emerging web coding trends/standards
 - Familiarity with collaborative source control management
 - Ability to plan projects, manage assets, and comprehend the big-picture
 - Willingness to receive direction, oversight, and accountability
 - Propensity for organization, meeting deadlines, and following through is necessary
-

OTHER INFO:

- We will provide a second-floor window office space within a comfortable and creative environment
- We will provide a Mac laptop and external monitor with all necessary applications and tools

***Please send resume and portfolio examples of your work to jobs@greymob.com**

ABOUT US

GREYMOB

We are a division of Purdue Christian Campus House which empowers college students to put their faith into action. We come alongside passionate students with big ideas and give them the resources and guidance to start faith-inspired, and socially-conscious initiatives. We're a little like creative consultants, and a little like a non-profit business incubator. Our hope and prayer is that we can support and equip the next world leaders to mobilize good.

CAMPUS HOUSE

We are a church community in West Lafayette, Indiana serving Purdue's campus by reaching out and creating a context for deep, gospel-centered relationships. We embrace the arts as a common language and expression of God's love for us through worship, outreach, and studying the word of God. We have Sunday services for several hundred students, a midweek bible study, small groups, and are actively involved in missions and service both locally and globally. Our coffee shop is located in the heart of campus and has over 150,000 patrons every year. We come alongside students to help them connect with Jesus, who constructs their faith in a way that is unique, filled with passion, and pointed purposefully at serving His Kingdom wherever their career takes them.
